

Student success checklist

The basics

- ❑ Register in your Year communications group each morning by answering the 'Yes or No' question in the classwork section.
- ❑ Engage with form time activities in your form classroom.
- ❑ Watch the weekly assembly posted each Tuesday at 9am and tick 'MARK AS DONE' if you do not need to attach evidence. If you need to attach something to the assignment click 'SUBMIT' once done.
- ❑ Familiarise yourself with your new reduced home learning timetable (watch any videos that have been posted in your Year group classroom that talk you through the changes).
- ❑ Plan 'my week ahead' using my timetable. Decide if learning will require you to be online or offline for each period.
- ❑ Write a 'TO DO LIST' at the start of the week to manage your time effectively.

Accessing support

- ❑ Take your time to read the instructions clearly for each written assignment in google classroom (there may be something you have missed or not read properly).
- ❑ Ask your teacher in the subject google classroom for help on the stream or in a private message. Your teacher will respond in a timely manner although this may not be an immediate response.
- ❑ Join a 'live' subject drop-in session on google meet to ask a subject specialist teacher questions about your work. These will be advertised in your google classrooms this week and may not be your normal teacher.
- ❑ If you need non-subject support please speak to your form tutor in your form google classroom.
- ❑ If you need support outside of the google classroom environment or you are worried about anything you can email studentwelfare@flixtongirls.com

IMPORTANT NOTICE

Your new timetable sets a minimum expectation of how many learning hours per fortnight. You have the flexibility to complete the work in any order you like as long as it is completed within the deadline. If you finish any work and want further challenge please ask your classroom teacher in the google classroom for this.
